

BENCE SZEPESVÁRI

+36 30 240 0617 | bence.szepesvari@gmail.com

Product Owner | IT Project Manager | Business Analyst

Result-oriented professional with 15+ years of experience bridging the gap between complex business needs and technical implementation. Proven track record in agile product development, end-to-end delivery, and cross-functional stakeholder management across the telecommunications, banking, and energy sectors.

PROFESSIONAL EXPERIENCE

Product Owner / E2E Product Implementation / Founder | ittszabad.hu – 2024 – 2026

- Executed the end-to-end autonomous development of web and mobile applications (iOS & Android) utilizing Cursor AI, Flutter, and Dart.
- Defined product strategy, business logic, and UX/UI design; managed the entire product backlog and feature prioritization.
- Conducted rigorous E2E testing (functional and regression) to ensure seamless deployment and high-quality user experience.
- Successfully managed the full publication and release lifecycle across App Store, Google Play, and web platforms.

Product Owner / Development & QA Team Lead | WeCan Technology Zrt. – 2021 – 2023

- Provided high-level business analysis for a Dubai-based streaming platform, including requirements gathering, functional specification, and roadmap planning in collaboration with solution architects.
- Led and mentored an agile delivery team of 10 professionals, ensuring the continuous E2E delivery of business-critical features.
- Established automated testing strategies and optimized QA processes to decrease post-release defects.
- Aligned diverse stakeholder expectations with technical capabilities; effectively managed vendor relations and external communications.

Business Analyst / Project Manager | MVM Informatika Zrt. – 2019 – 2022

- Identified and documented development requirements across multiple business units within the MVM Group.
- Collected business requirements from client areas, authored requirement and functional specifications, and obtained formal sign-offs.
- Supervised the MVM Group portal redesign project, managing scope, timelines, and stakeholder communication.

Business Analyst / Systems Analyst | OTP Bank Nyrt. – 2018 – 2019

- Specified, and coordinated development requirements for banking front-end systems with business clients, developers, and vendors using agile methodology.
- Key projects: online account opening via video call, mortgage loan application, consumer loan application.
- Designed user interfaces in collaboration with business and vendors; coordinated UAT, test management, bug tracking, and patch testing.
- Supervised daily operations, tracking SLAs and service orders.

E-Business Manager | Magyar Telekom Nyrt. – 2014 – 2018

- Coordinated online development requirements for the SME segment from high-level business needs through project initiation, business case, to go-live; harmonized vendor and agency tasks.
- Key projects: SME online selfcare redesign + ICT Marketplace (processes, UX/UI, branding), Single Sign-On implementation (Telekom Account), B2B Webshop (SOHO) harmonized with retail webshop, Telekom App, One App (with Deutsche Telekom subsidiaries), B2B Go Digital program for DT subsidiaries.

- Defined customer routing strategies based on client interviews and agency research; developed online strategy and tracked KPIs.
- Presented project results to senior management; created training materials and coordinated training sessions.

IT Consultant | BCA Hungary Kft. – 2011 – 2014

- Gathered, specified, and documented business requirements; served as the liaison between business and development teams.
- Key clients: Magyar Telekom (coordinated business and vendor reviews), Telenor (commission system transformation), Paks Nuclear Power Plant (requirements management for plant life extension project), MVM Partner (introduction and testing of metering data management system), MET-MOL (receivables management system analysis and testing).
- Coordinated design, development, and training tasks on the client side.
